

Building a Safe & Strong Oregon

Governor Kate Brown

Hello,

As we begin the process of reopening and building a safe and strong Oregon, I again ask Oregonians to come together and be smart. Reopening any part of our state comes with risk.

This virus is still very dangerous, and it still poses a great threat. Please follow the safety measures we are putting in place to help these businesses reopen — we’ve had the best doctors and public health experts guide us on how to safely and gradually reopen Oregon. It’s up to us to follow their advice if we want to keep Oregon safe and strong.

Be well,
Governor Kate Brown

Face Coverings Required Statewide

Masks, face shields and face coverings are currently required statewide for indoor public spaces (for example, grocery stores, pharmacies, public transit, personal services providers, restaurants, bars, retail stores, and more). In addition, face coverings are required in outdoor public spaces when physical distancing is not possible, effective July 15th.

Children over the age of 2 and under the age of 12 are recommended, but not required, to wear a mask, face shield or face covering. People with a disability or medical condition may request accommodation from the business if they cannot wear a mask, face shield or face covering.
